Wireless Security Camera

ACCESSORY
Compatible with ALC AWS2155 Video Surveillance System

Model AWSC25

QUICK START GUIDE
CAMERA MOUNTING

1. Secure the multi-position camera stand to a stable surface, ceiling or wall.
2. Loosen the T-Bolt on the camera stand and adjust viewing angle using the Thumb Screw to rotate position.
3. Align hole on bottom of camera with T-Bolt to install camera. Screw antenna into rear of camera.
4. Attach power cable to power extension cord AC Adapter. Plug into electric outlet.

NOTE: Cameras are IP66 rated for indoor/outdoor use. For outdoor use it is recommended to install camera under shelter to protect from direct exposure to sunlight and other environmental elements. Avoid pointing a camera directly at any bushes or tree branches or objects that may naturally move due to winds.

PAIRING ADDITIONAL CAMERAS TO CONTROL PANEL

The AWS2155 Wireless Surveillance System supports up to four (4) wireless surveillance cameras. Use the following steps to pair each additional camera.

From the Main Menu on the Control Panel, select the CAMERA SET UP icon
Then select camera station to be paired
Tap the CAMERA STATION you want to pair; a 30-second timer will start.
Within 30 seconds, press the PAIRING KEY once on the camera’s power cord. The screen header will change from pairing to paired.
Go to HOME SCREEN to view live cameras on the Control Panel Monitor.

NOTE: Cameras are IP66 rated for indoor/outdoor use. For outdoor use it is recommended to install camera under shelter to protect from direct exposure to sunlight and other environmental elements. Avoid pointing a camera directly at any bushes or tree branches or objects that may naturally move due to winds.
